Numb. 4060.

The Daily Courant.

Thursday, October 28. 1714.

To the King's most Excellent Majesty.

The most humble Address of the Minister and Church Wardens of the Prussian Church at London, in behalf of themselves and the rest of the Prussians residing in this Nation.

Dread Sovereign,

THE Death of her late Majesty Queen Anne of pious Memory is justly to be lamented, and we beg Leave most humbly to condole with your Majesty for it.

But God's Mercies and Deliverances, wrought immediately thereupon for these Protestant Kingdoms, even down to our latest Posteriority, by your Majesty's peaceful Accession to the Throne, and happy Arrival with his Royal Highness the Prince of Wales, are such as cannot be expressed by one Generation, and much less by one single Church.

Yet permit us, Dread Sir, in Thankfulness to God, and Duty to your Majesty, to appear also among the rest of your Loyal and Faithful Subjects before your Royal Throne, there not only to lay down these our most humble Congratulations, but likewise at the same time to send up to the Throne of Heaven our most fervent Supplications for the Preservation of your sacred Person, and the Prosperity of your Government, that your Life among us may be long and happy, and your Reign over us out-shine the Lustre and Glory of Solomon's.

London, October 28.

Yesterday arrived the Mail from France.
From the Paris Gazette, dated Nov. 3.

Madrid, Oct. 15. The King has erected in this City by his Letters Patents, an Academy for perfecting the Castilian Tongue; it will be composed of 24 Persons, and the Marquis de Villena, Duke of Escalona, Major Domo to the King, and one of the learnedest Lords in Spain, is named by his Majesty for the Director of it, and Don Vincencio Squarzafigo for Secretary. Yesterday the Prince of Chalus took Possession of the Honour of Grandee of Spain, and was covered before the King. By an extraordinary Courier arrived the 13th we learn, that the Queen went on board the Galley at Sevri, with design to continue her Voyage to Spain by Sea, but she suffered so much by bad Weather at Sea that she was obliged to land at San Pietro d' Arena, and resolved to go the rest of the Way by Land, cross France through Provence and Languedoc, and enter Spain by Roncevaux and Pamplona. The last Advices from Barcelona are, that the City is provided with Abundance of all sorts of Provisions, that all things are in quiet there, and that the Marshal of Berwick has published Orders forbidding upon pain of Death any body to treat the Catalonians as Rebels, or the Catalonians to injure the Castilians. It is resolved that a Citadel shall be built there for the Defence of the City and the Port.

Naples, Oct. 2. They write from Calabria, that since the Departure of the King of Sicily to return to Savoy, the Commander at Reggio has published an Ordinance to give freedom of Commerce between Sicily and this Kingdom, with permission to unlade Goods, come on Shore, and Sojourn reciprocally with all Safety, which had not been allowed before. The same Orders have been

also published at Messina and Palermo. We have Advice by the same Letters from Calabria, that the five Galleys of the Squadron of this Kingdom, who sailed some Days ago, continue their Voyage towards the Levant; and 'tis said they will joyn those of Malta, in order to pursue the Corsairs of Barbary, who have taken many Prizes, and done much Damage upon the Coast. The Corsairs of Dulcigno are returned home, carrying with them many Slaves and some Ships which they have taken. Yesterday being the Birthday of the Emperour, it was celebrated with great Magnificence, and the Viceroy received the Compliments of the Magistrates, the principal Officers, and the Nobility, fitting under a Canopy with the Vice-Queen.

Venice, Oct. 13. Divers Ships are arrived from Dalmatia, and bring Letters which advise, that the Bassas of Albania, Bosnia, and Hertzegouina had ordered all the Troops under their Command to be ready to march against the Montenegrins, but have countermanded those Orders. The reason of this change of their Minds is attributed to the Resolution those People have taken to perish rather than submit, and have accordingly retired into inaccessible Places, which they have moreover strengthened by new Fortifications. This has made the General of the Turks judge that he could not undertake that Enterprize without exposing his Men unprofitably, and besides the Sealon is too far advanced. 'Tis therefore thought fit to remit that Work to the Spring, and in the mean time to Post some Parties to command those Passages of the Mountains by which the Montenegrins might draw Subsistence; but 'tis assured that they have made a plentiful Harvest, and are well provided with all they want. Letters from Durazzo say there is Advice at Belgrade, that the King of Sweden was set out from Demir Toca. The Chevalier Delsino, Provvisor-General of the Sea, is sailed from Zant with his Fleet for the Morea, and some Men of War are preparing to reinforce him. The Magistrate for Health has received Information, by which 'tis known that in Saria and beyond the Gratz, 18 Villages being infected with a contagious Distemper, are shut up, and all necessary Precautions are taken to hinder Commerce that Way. The same Care is taken to stop the progress of the Mortality among the Cattle, which continues to make so great Ravage in the Brescian and the Bergomase, that the Gouvernours of Mantua and Cremona have resolved to interdict all Commerce for Cattle with those two Countries.

From the Gazette a la Main, dated Nov. 3.

Paris, Nov. 3. They write from Genoa, that two Ships from Barcelona arrived there the 12th past, having on board several Persons of Quality who are retiring to Milan, fearing the same Fate with those who were arrested and sent to Alicante, where they are shut up in the Castles. The Elector of Cologn is arrived here with a great Retinue, and has taken up his Lodging in the Hotel de la Reine Margarite in the Fauxbourg St. Germanie. Count Ribeira, Ambassador extraordinary from the King of Portugal, hastens the preparation of his Equipage, to make his publick Entry. 'Tis talked that a General Assembly of the Clergy of France will be convoked, wherein the Archbishop of Narbonne will preside.

Bristol, Oct. 23. Yesterday arrived here the Duke Galley in 7 Weeks from Jamaica, as also the Blackwell Galley and the Betty in 15 Days from Newfoundland.

Plymouth, Oct. 24. This Day came back from the Westward by contrary Winds, his Majesty's Ship the Valeur.

Portsmouth, Oct. 26. His Majesty's Ship the Canterbury remains at Spithead.
